Welcome!

Welcome to the University of Florida College of Veterinary Medicine’s 5th Annual Healthy Horses Conference on Saturday, April 28, 2012! Healthy Horses is an educational day with a focus on successful equine health care. The day includes lectures, lunch and live equine demonstrations.

This year’s topics are compiled from previous requests and will include an update on paralysis caused by EHV, rehabilitating lameness injuries, new deworming recommendations, and Q&A sessions on preventative health care and equine lameness—just to name a few.

We will also feature tours, high-speed treadmill demonstrations and a lameness locator demonstration! The presenters will predominantly be the board-certified faculty of UF’s Large Animal Hospital, and a brief summary folder of the lectures will be provided to all attendees. We hope to have some of the same fantastic sponsors as last year’s event with door prizes as well!

The University of Florida is dedicated to improving owner education and hope you will make this an annual event. It is a wonderful opportunity to see our hospital facility and meet veterinarians from all of our services. Plenty of time for questions will be provided. Registration is limited and can be completed online, so please register soon! Also, be sure to visit our other Web site for additional equine event information at www.vetmed.ufl.edu/extension/equine. We hope to see you in April!

Sincerely,
Amanda M. House, DVM
Diplomate ACVIM
Assistant Professor
Large Animal Clinical Sciences
